Statement on Legislation To Implement the Community and Faith-Based Initiative
February 5, 2003

I applaud the Senate Finance Committee, under the leadership of Senators Grassley and Baucus, for moving quickly on a key component of bipartisan faith-based legislation sponsored by Senators Santorum and Lieberman. Today's action brings us one step closer to creating incentives for Americans to donate more to charities, many of which are facing tough financial times. We must also work to level the

playing field for community and faith-based organizations that provide effective social services to our fellow citizens who are in need. I look forward to working closely with the Senate and House to improve the legislation to get a strong, bipartisan faith-based bill on my desk as soon as possible. Together, we can help encourage acts of compassion that can transform our Nation, one heart and one soul at a time.

Message to the Congress Transmitting the Norway-United States Agreement on Social Security
February 5, 2003

To the Congress of the United States:

Pursuant to section 233(e)(1) of the Social Security Act, as amended by the Social Security Amendments of 1977 (Public Law 95–216, 42 U.S.C. 433(e)(1)), I transmit herewith the Agreement Between the United States of America and the Kingdom of Norway on Social Security, with a related administrative agreement, both signed at

Oslo on November 30, 2001. This revised Agreement is intended to modify certain provisions of the original United States and Norwegian Agreement, which was signed in Washington on January 13, 1983, and, upon its entry into force, will replace the 1983 Agreement.

The revised United States-Norwegian Agreement is similar in objective to the

other social security agreements already in force with Austria, Belgium, Canada, Chile, Finland, France, Germany, Greece, Ireland, Italy, Korea, Luxembourg, The Netherlands, Portugal, Spain, Sweden, Switzerland, and the United Kingdom. Such bilateral agreements provide for limited coordination between the United States and foreign social security systems to eliminate dual social security coverage and taxation, and to help prevent the lost benefit protection that can occur when workers divide their careers between two countries. The revised United States-Norwegian Agreement contains all provisions mandated by section 233 and other provisions, which I deem appropriate to carry out the purposes of section 233, pursuant to section 233(c)(4).

I also transmit for the information of the Congress a report prepared by the Social Security Administration explaining the key

points of the Agreement, along with a paragraph-by-paragraph explanation of the provisions of the principal agreement and the administrative agreement. Annexed to this report is the report required by section 233(e)(1) of the Social Security Act, a report on the effect of the Agreement on income and expenditures of the United States Social Security program and the number of individuals affected by the Agreement. The Department of State and the Social Security Administration have recommended the Agreement and related documents to me.

I commend the United States-Norwegian Social Security Agreement and related documents.

Message to the Congress Transmitting Proposed Legislation To Establish the Millennium Challenge Account and the Millennium Challenge Corporation

February 5, 2003

To the Congress of the United States:

I am pleased to transmit a legislative proposal to establish the Millennium Challenge Account and the Millennium Challenge Corporation. Also transmitted is a section-by-section analysis.

The Millennium Challenge Account (MCA) represents a new approach to providing and delivering development assistance. This new compact for development breaks with the past by tying increased assistance to performance and creating new accountability for all nations. This proposal implements my commitment to increase current levels of core development assistance by 50 percent over the next 3 years, thus providing an annual increase of \$5 billion by fiscal year 2006. To be eligible for

this new assistance, countries must demonstrate commitment to three standards—ruling justly, investing in their people, and encouraging economic freedom. Given this commitment, and the link between financial accountability and development success, special attention will be given to fighting corruption.

The goal of the Millennium Challenge Account initiative is to reduce poverty by significantly increasing economic growth in recipient countries through a variety of targeted investments. The MCA will be administered by a new, small Government
